Toccare I'ARTE

L'esperienza del Museo Tattile
Statale Omero di Ancona

EDI Global Forum for Education and Integration

Online Agora

Touching for us is still and always essential!
This is the only museum in the world where
art meets touch, sight, thoughts and creates
a sensation called wonder.

A space where you can return to feel good
and spend time in the company with art.

A place without barriers inhabited by students,
families, associations, people with disabilities,
especially visual, in short, by all those who are
curious to experience art in an alternative way.

A place to educate the eyes, thoughts and hands.

Annalisa Trasatti (Services Coordinator)

Museo Tattile Statale Omero di Ancona – Ancona, Italy
